

PRESS RELEASE

19th October 2016

iSupplyEnergy launch new fixed rate tariffs, giving consumers some of the cheapest energy deals on the market

With energy prices expected to rise over the winter months, iSupplyEnergy, one of the UK's fastest growing energy suppliers, has launched new fixed rate deals for consumers - giving some of the cheapest deals on the market. To complement the existing fixed 12-month tariff, iSupplyEnergy has launched the new iFix 24-month Nov18 and iFix 36-month Nov19 – meaning customers could save up to £241* on their annual energy bill. These tariffs are available for a limited time only for electricity only and dual fuel (gas and electricity). This is a great opportunity for customers to fix themselves a highly competitive energy price for 12, 24 or 36 months.

Founded in 2012, iSupplyEnergy has been offering Direct Debit customers some of the lowest prices for gas and electricity in the UK, offering a range of fixed and variable rate products. They also offer a cheap PAYG product – iPrePay – which is proving extremely popular with customers who have prepayment meters.

Rob Gildert, CEO at iSupplyEnergy, said of the new fixed rate deal, *“We are proud to be able to offer customers some of the best fixed rate energy deals on the market, backed up by our simple, easy to switch process and excellent customer service.”*

Key Tariff Information

- 'iFix 24-month Nov18' and 'iFix 36-month Nov19' are available directly on www.isupplyenergy.co.uk
- It is also available through comparison sites such as MoneySuperMarket, uSwitch, Energy Helpline and Energylinx
- Available to new and renewing customers
- Payable monthly by Direct Debit
- Prices fixed for 24 months or 36 months (depending on tariff)
- A Termination Fee applies during the fixed price period
- Not available for Prepayment meters

*Savings correct as of 19 October 2016 and are based on Ofgem Typical Domestic Consumption values for a medium usage dual fuel customer. iSupplyEnergy have compared their 'iFix 36-Month Nov19' to the most similar tariff in the market.

iSupplyEnergy is the electricity and gas company that is challenging the old ways of energy supply. Launched in 2012, we're now one of the fastest growing energy suppliers in the UK.

Whether it's straightforward and low pricing, an industry leading online customer portal for managing bills, meter readings and payments, or an easy switching process, our focus is on simplicity, fair prices and great customer service. For more information, please visit www.isupplyenergy.co.uk
